Attaching containers

What could be the reason of the following error:

docker: Error response from daemon: Could not attach to network my_overlay: rpc error: code =
PermissionDenied desc = network my_overlay not manually attachable.

Selecione uma alternativa

A   The `my_overlay` network was not created with `--attachable` flag

B   The container is broken

C   You can't attach containers to overlay networks

D   The `my_overlay` network was not created with `--isattachable` flag
