Questão #10

PROGRESSO:

10/60

The IT security group decided to set up a hybrid environment for the company's computing resources. What features and advantages can a VPN connection provide?

Selecione uma alternativa

- A** It provides a connection between an on-premises network and a VPC, using a secure and private connection with IPsec and TLS.
- B** It provides a network connection between two VPCs that can route traffic using IPv4 or IPv6.
- C** It provides a private, dedicated network connection between an on-premises network and the VPC.
- D** It provides a cost-effective, private network connection that bypasses the internet.
