

Questão #17

PROGRESSO:

17/60

A car rental company keeps a variety of information in files for one year for quick retrieval and after this period makes long-term storage. You have been hired as a consultant to find a solution that provides high availability and reasonable cost. Which storage option do you recommend?

Selecione uma alternativa

A

Store the files in S3 for a year, then archive to Glacier.

B

Store the files in Glacier for maximum cost savings.

C

Store the files in S3 for a year, then have the lifecycle policy move them to S3 IA.

D

Store the files in EBS volumes for a year, then migrate them to Glacier.
