

Filtrando os eventos

No evento gerado abaixo qual chave deve ser utilizada para identificar a criação de um arquivo em um bucket S3?

```
{ "Records": [ { "eventVersion": "2.1", "eventSource": "aws:s3", "awsRegion": "us-west-2", "eventTime": "2019-05-17T15:16:00.000Z", "eventName": "ObjectCreated", "detailType": "ObjectCreated", "detail": { "key": "HappyFace.jpg", "size": 1024, "eTag": "d41d16" } }, { "eventVersion": "2.1", "eventSource": "aws:s3", "awsRegion": "us-west-2", "eventTime": "2019-05-17T15:16:00.000Z", "eventName": "ObjectCreated", "detailType": "ObjectCreated", "detail": { "key": "HappyFace.jpg", "size": 1024, "eTag": "d41d16" } } ] }
```

Selecione uma alternativa

A key

B bucket

C eventname
