- 5) What new ideas can you bring to this company?
What can you contribute to this company?

1º MODELO DE RESPOSTA

Before I applied for this position I downloaded a copy of the job description and I read it carefully to be sure I met the requirements of this role. I have experience in planning, organizing, and achieving goals day by day, and this is what I can bring to the company.

I believe that organization and planning are the best way to have success. Even when things don't work the way I plan I can keep focused on the solution, I like to work under pressure because we can find new ways to do things.

This is another experience I have, to help the supervisors to achieve their goals, they are always under pressure, and I can help with creativity to find a solution.

I had to adapt myself to work in all kinds of team, from a multi-task team to a team where each one has a specific role, so we can cooperate and once again, follow the plan to achieve success.

I am confident I have the right skills to offer.

I believe It's good to have different people in a team, like our body, each part has a function but everything works perfectly.

We have different skills and abilities, which makes us a great team, and of course, we need to be open to receiving feedback and be willing to improve and develop as a team.

2º MODELO DE RESPOSTA

I have been in a truck driver for the last five years, I acquired a lot of vital skills. Most notably, my memory and navigational skills are excellent. After I drive a route once, I can do it again without a map.

It makes me a more efficient truck driver.

I am also reliable and committed to the goals of the company.
