Multicast x Broadcast

You're a network engineer applying for a position at Cisco, we ask you why multicast has a better performance compared to broadcast communication. What would your answer be?

Selecione uma alternativa

A   Multicast generates less traffic than Broadcast communication, avoiding potential floods

B   Multicast has a smaller header than broadcast communication

C   Multicast is approximatelly 10 times faster than broadcast communication

D   Multicast is less CPU intensive for routers than broadcast communication
