1º MODELO DE RESPOSTAS STRENGTHS

About my strengths:

Well, I am a really very fast learner, If I have some new role, I always spend my time learning more about it.

I am also a very quick worker, my co-workers used to call me "The robot" because I can finish a task faster than my colleagues, with a high level of quality.

When they have a challenging situation with a short deadline, they always ask me for help or advice.

Another point I would like to highlight is my ability to keep calm under pressure because of my previous organization.

Even when something unexpected happens, I know how to find a solution.

Ability to plan the route and follow the schedule.

Knowledge of traffic laws and safe driving. I have never caused an accident.

Strong time-management. I always meet deadlines.

1º MODELO DE RESPOSTAS WEAKNESSES

Because I am a very fast learner and I like to do the tasks always well before the deadline, sometimes I can not say no to new challenges, because I really want them, but sometimes I can get overwhelmed, and I find myself working in the evening and at night studying about the subject to find the best way it needs to be done.

I know it is not good for my health. I am learning how to avoid this situation by making a very realistic schedule and following in the plan.

And the fact that English is not my first language, I have to make sure I understand what needs to be done.

I am keeping on learning, I have English classes weekly.

Of course, during my work here if you find something I need to improve, please tell me and I will improve that.

2º MODELO DE RESPOSTAS WEAKNESSES

I am still limited in my communication skills because English is not my first language, I have to make sure I understand all the orientation and I take a time to double-check them.

But, I am keeping on learning, and I have online English classes weekly.
