Condicionais

Quais das alternativas abaixo são formas corretas de se fazer condicionais no Sass?

Selecione 3 alternativas

A

```
@mixin theme-colors($light-theme: true) {  
  @if $light-theme {  
    background-color: $light-background;  
    color: $light-text;  
  } @else {  
    background-color: $dark-background;  
    color: $dark-text;  
  }  
}
```

B

```
@if $direction == up {  
  border-bottom-color: $color;  
} @elseif $direction == right {  
  border-left-color: $color;  
} @elseif $direction == down {  
  border-top-color: $color;  
} @elseif $direction == left {  
  border-right-color: $color;  
} @else {  
  @error "Unknown direction #{ $direction }.";  
}
```

C

```
@if $direction == up {  
  border-bottom-color: $color;  
} @else if $direction == right {  
  border-left-color: $color;  
} @else if $direction == down {  
  border-top-color: $color;  
} @else if $direction == left {  
  border-right-color: $color;  
} @else {  
  @error "Unknown direction #{$direction}.";  
}
```

D

```
@if $circle {  
  border-radius: $size / 2;  
}
```
