Quando nós usamos o **most** antes de artigos - **a/an, the, demonstrativos - this, that, possessivos - my, your, ou pronomes - him, her, them...** precisamos colocar o **'of'** depois.

Já quando não temos nenhum dos itens citados acima, nós não usaremos o of. **(Quando eu falar isso, deixar o que está em negrito da frase anterior na tela, e repetir abaixo as mesmas palavras, riscando as palavras e também riscando o 'of', pra representar bem que, se não tem palavras assim, não vai o 'of')**
