

AULA 3

3) Why are you looking for a new opportunity now?

1º MODELO DE RESPOSTA

I worked for many years in a company where I really liked the job, I created designs for t-shirts, and I created designs for 9 different brands at the same time, respecting their own style.

I also was responsible for all the art departments, including social media platforms, as well as the website.

I felt I needed to grow and challenge myself a little bit higher.

I started working as a freelancer and exploring the digital world, I learned a lot other functions, like UI design and digital marketing.

In the past years, I took a lot of courses to improve myself.

I find in this job position all that I want to work with and in this company the mission I believe.

2º MODELO DE RESPOSTA

When I was younger, I loved to travel with my family.

I developed a love of being on the road, so I wanted to have a career that allowed me to drive for a living.

Driving across Canada is the perfect match for what I like to do and the fact that I can give my family a great quality of life.

We are all excited about this new opportunity in this company.
